

NEW **RIEGL** VZ-i Car-Mount

Mobilize Your Terrestrial Laser Scanner

Mount the *RIEGL* scanner on a vehicle to mobilize your scanner for either kinematic scanning or quick stop&go scanning.

The lightweight design of the mount enables easy installation by a single person. Simply operate the scanner from the inside of the vehicle by utilizing the *RIEGL* VZ-i series app for remote control of the scanner without any cable connections. The mount is equipped with a Quick-Release adapter, which fits with the *RIEGL* VZ-600i/VZ-1200i 3-Point setup stand. This ensures that the scanner is secured with

a single hand movement. The *RIEGL* VZ-i Car-Mount offers flexible mounting solutions for almost any vehicle roof. It can be fixed on the *RIEGL* VMY/VMX roof mount, on Thule wingbars, or on a TreeFrogRacks suction pad solution. All mounting solutions are limited to use at vehicle speeds of 20 km/h on smooth asphalt roads.¹⁾
