

RIEGL Laser Measurement Systems GmbH has been active in the field of LiDAR measurement technology for more than 40 years and is one of the world's leading companies in this area.

To fill this position as soon as possible, we are currently looking for an

Employee for the Sales Department (m/f)

You can expect a very exciting range of responsibilities within our globally operating company. After thorough training and induction, your interesting and varied tasks will include:

Responsibilities

- Active engagement in supporting and managing our global network of distribution partners and direct customers
- Preparation of quotations and coordination of business transactions and projects
- Coordination with the production department regarding scheduling and deliveries
- Preparation of statistical reports and analyses
- Representing the company at trade fairs and exhibitions, both at our headquarters in Horn and internationally
- Conducting customer visits and product demonstrations at our headquarters in Horn and internationally

Qualifications

- Completed commercial or technical training, or relevant professional experience in this field
- Good command of German and English, both written and spoken
- High willingness to learn and strong affinity for technical products
- Good knowledge of Microsoft Office applications
- Willingness to travel occasionally and enjoyment of close customer interaction
- Well-organized and structured working style

The place of work for this position is one of our facilities in 3580 Horn, Austria.
